Market Assessment of the UK Environmental Consulting Sector 2011

Part of Environment Analyst's Market Intelligence Service

Contents and list of figures

1. Contents

1.	Contents	1
2.	List of figures	3
3.	About	5
3.1	Environment Analyst.....	5
3.2	Market assessment methodology	5
3.3	Acknowledgements	6
3.4	Explanatory notes.....	6
4.	Definition	8
5.	Executive summary	9
6.	Market structure & operational trends	12
6.1	Market history	12
6.2	Number of operators	13
6.3	Types of operator	14
6.4	New market entrants.....	14
6.5	Geographic coverage – office networks rationalised.....	15
6.6	Ownership structure.....	17
6.7	Private equity interests.....	18
6.8	Related services.....	19
6.9	Overview of operational trends.....	19
6.10	Overseas work.....	22
6.11	Mergers & acquisitions	22
6.12	Alliances & joint-ventures	30
7.	Market size, drivers & financial trends	31
7.1	Methodology and confidence level.....	31
7.2	Market context and historic growth	31
7.3	Organic versus acquisitive growth	35
7.4	Survey market growth trends 2009-2010 & Q1 2011.....	35
7.5	Market drivers, risks and recession.....	37
7.6	Changing policy landscape shapes demand for consultancy	39
7.7	Market drivers – economic vs. legislative (US case study).....	44
7.8	Market leaders – recession’s winners and losers.....	44
7.9	The quoted consultants – 2011 and beyond	47
7.10	Financial performance metrics	50
7.11	Contract trends and visibility of order book.....	54
7.12	Profitability – focus on improving margins through the downturn.....	56
8.	Staff trends & fee rates	59
8.1	Human resources – trends in redundancy & recruitment.....	59
8.2	Staff turnover	61
8.3	Professional qualifications, accreditation and trade bodies	62
